

# FIRESIDE CHAT: SEAMLESS DEPLOYMENT FOR EASY AND QUICK ADOPTION

## Sam Hitz

CTO and co-founder  
Anapaya Systems  
Switzerland

# Anapaya product suite

## CONSOLE by ANAPAYA

Web-based user interface through which administrators can access the Anapaya Suite dashboard, where they can manage the various settings and configurations for the network.

## CORE by ANAPAYA

High-performance SCION routers for NSPs (ISPs or carriers)

## GATE by ANAPAYA

SCION to IP gateways for ISPs, to collect traffic from their residential networks

## EDGE by ANAPAYA

SCION-to-IP highly controllable gateways for Enterprises to connect their locations

## Professional Services

**The Console** serves as an entry point into the Anapaya product world to make configurations.

The products **CORE, GATE and EDGE** are the entry points to access the SCION network.

**Anapaya Professional Services** provides tailored support and expertise to realise the full potential of our solutions and maximise our success.

# SCION is more reliable. Numbers don't lie.

Resilience test scenario	SSFN		Existing IP network	
	Failover time	Session upheld?	Failover time	Session upheld?
Link failure-access	< 1s	yes	> 3 min	no
Link failure-core	< 1s	yes	n/a	no
Core Router failure	< 1s	yes	n/a	no
EDGE Gateway failure	< 5s	yes	> 3 min	no
Provider failure	< 1s	yes	n/a	no
