SCION. From a blueprint.

01

Blueprint.

One proven, standardised design for a SCION Core site – built on Cyberlink's SCION experience.

02

Deploy.

Rolled out on Anexia's own cloud platform and backbone – at any of 100+ locations worldwide.

03

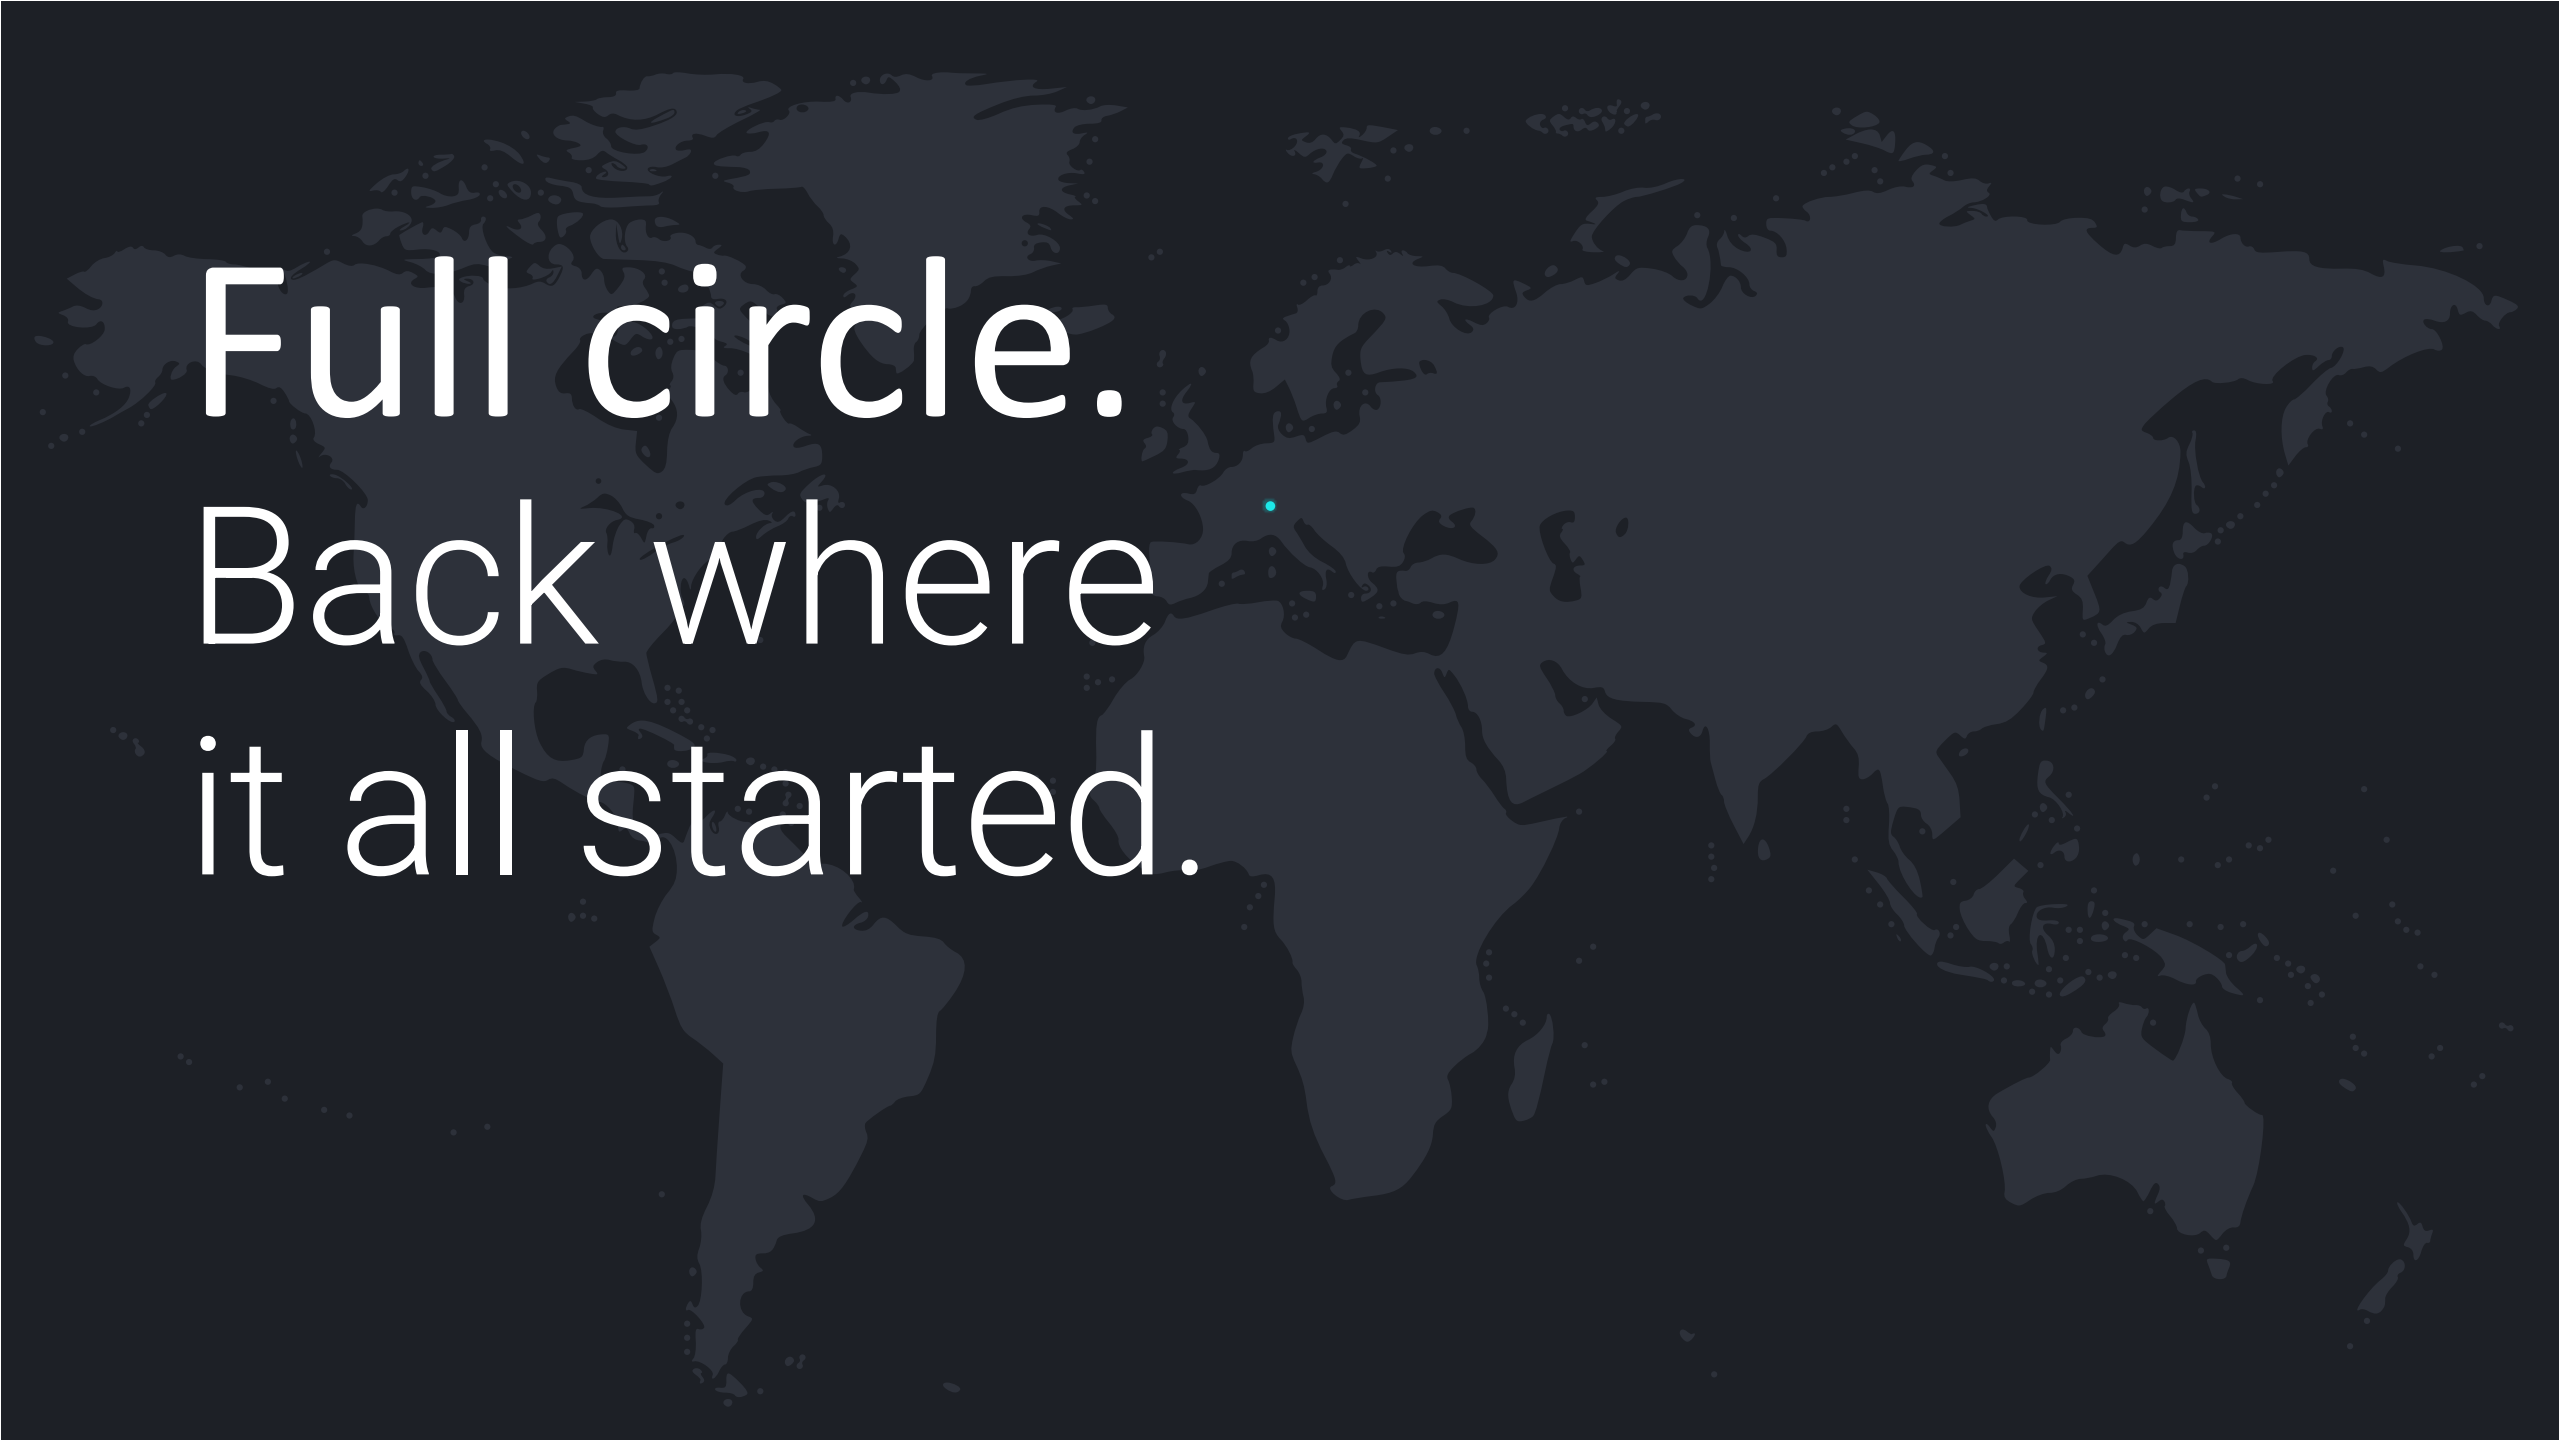

Live.

SCION Core, SCION Edge and PathGuard – up and running where the customer needs them.

A new SCION Core – in no time.

Built for banks.

Data location	Clear data and hardware location for business-critical data.
European law	All services are subject to European law.
Proof	ISAE 3402 Type II report for your financial statement and company audits.
Control	Anexia Cloud Solutions as single point of control – including externally integrated architecture.
Operations	24/7 incident and problem management.
+ SCION	Secure, Internet-free connectivity – available together with your Anexia cloud.

Full circle.
Back where
it all started.
